Magnum to Launch UNIX Platform

Magnum to Release Product Suite in UNIX Operating Environment

ATLANTA, GA – March 23, 2009 – Magnum, an industry leader in credit analytics, decision tools and professional consulting services has released their suite of products on the UNIX platform. Credicheck 6.1®, RapUP Host 3.0®, Decision Assistant Host 3.0®, and the Magnum Test Facility 2.0™ will all be available on UNIX (AIX) beginning April 2009. These browser based versions of software will run under UNIX and various Windows environments. In addition, testing of additional releases under additional UNIX (i.e. Linux and Solaris) environments is underway and will be available in the near future.

Magnum CEO, Carl Eikhoff, states that “one of Magnum’s on-going objectives is to make our product offerings more attractive and competitive in the marketplace. By releasing our product suite in the UNIX operating environment we have the ability to provide current and prospective clients with the enhancements necessary to perform their business activities. Our goal is to continue to improve upon our existing products and produce new products that meet and far exceed our customer expectations.”

About Magnum

Founded in 1976 as Magnum Communications, Limited, Magnum is a leader in credit data access, analysis, decision management, and loan origination. The company offers a wide variety of products and services that enable lenders to make informed, automated decisions regarding credit risk. Using Magnum's powerful tools, clients can easily access and retrieve relevant data from a broad range of U.S. and international consumer and commercial data sources. Magnum enables its clients to maximize the value of this data to control both scoring attributes, decision strategies, and the business work-flow process.

In 2007 CRIF acquired Magnum. CRIF, established in 1988 in Bologna (Italy), has an international presence, operating over four continents (Europe, America, Africa and Asia) and specializes in the development and management of credit reporting, business information and decision support systems. Today CRIF is a leader in the continental Europe credit banking information sector, and one of the most important international players in the provision of integrated business and credit information. Thanks to a comprehensive range of information solutions, decision models, outsourcing systems, software and consultancy, Magnum provides support to banks, financial institutions, insurances, utilities and general business companies for each phase of the customer relationship cycle.
